

National AT&T Alliance Program Recognizes Outstanding Performance in Solution Providers

San Antonio, Texas, January 10, 2008

AT&T Inc. (NYSE:T) announced the recipients of the Second Annual Solution Provider Champion Awards at the 2008 AT&T Alliance Channel Kickoff meeting in Atlanta. Forty-one AT&T Solution Providers were recognized.

The AT&T Alliance Channel program focuses on Solution Providers that work with AT&T to serve the needs of midsize to large enterprise customers operating on a national scale. AT&T validates the high performance of Solution Providers that achieve specific revenue standards and demonstrate expertise in providing customers with high-quality solutions and service.

AT&T Solution Provider Champions combine their own program management and service capabilities with the power of AT&T network management, customer care and billing in order to better serve customers.

“As AT&T has expanded our reach and the breadth of services we offer our customers, our indirect sales channel has benefited and grown as well,” said Celine Azizkhan, National Alliance Channel Chief. “With outstanding performers such as our 2008 champions, we can deliver the benefits of the complete AT&T service portfolio to our business customers and provide more opportunities for our Solution Providers to grow with us.”

AT&T Solution Providers promote the full range of award-winning AT&T services, including Virtual Private Networks (VPNs), hosting and security services, to midsize and large companies. Later this year, AT&T also plans to announce its regional awards, recognizing Solution Providers that work with AT&T on a local and regional basis.

The 2008 AT&T National Solution Provider Champions are:

Alliance Datacom, Alliant Technologies, Allyance Communications Networks, Ancero, ADCom Solutions, Bandwidth.com, BEK Networks, Breakthrough Advisory Group, BriCon Communications, Carriersales.com, CDW Logistics, Inc., CONFIGURE, DPSciences Corp, DigiTel Services, dp Systems, Inc., G3 Networks, LLC, GLOBAL LINKING SOLUTIONS, Globetrend Technologies, **Go2 Communications, Inc.**, iVergent, KassNet, Inc., KM&M International, LAM Technology, Lightstream Communications, MegaComUSA, MSI Systems Integrators, National Communications Group, NetComp Communications Group, Network Access Products, Inc., Networking Negotiators, Inc., NEXTGEN NETWORKS, Presidio Networked Solutions, Renodis.net, Inc., Simplify, Inc, Solarcom, Spohn Consulting, TCI Communications, Technology Brokerage Group, Telecom Logistics, TelecomGiant, and Xtelesis Corporation.
